

Songwriting Private Lessons (All Ages Welcome!)

Songs inspire us in many ways... to dance, to take action, to reflect, to smile, to cry,
to feel enraged, joyful or transformed.

Have you always wanted to express yourself in song?

Are you a writer who would like to set your words to music?

Or a musician who has always played other people's songs and now you'd like to write your own?

You do not need to be a trained musician to learn songwriting!

In our lessons we will create songs and learn about the art of songwriting.

You will learn:

- ideas of what constitutes "a song"
- an understanding of rhythm, tone, melody and how they effect us emotionally
- we will study lyrics, lyric structure and the merging of lyrics with music
- much more!

Songwriting private lessons are \$75 per hr
or a block of 6 lessons is \$330 (\$55) per hr

Lessons are given at:
